---

Android Developer & Technical Lead

Experienced Android developer and technical lead with 10+ years of expertise in mobile and backend development. Skilled at driving projects from concept to deployment, balancing rapid feature delivery with high-quality, maintainable code. Strong advocate of clean architecture, comprehensive software testing, and performance optimization. Adept at leading teams, mentoring developers, and owning product delivery from start to finish—while remaining deeply hands-on with coding and system design.

Skills

Leadership & Mentorship, Kotlin, Java, Android SDK, Jetpack Compose, Coroutines, Kotlin Multiplatform (KMP), OOP, Reactive Programming, Clean Architecture, MVVM, MVI, Modularization, Design Principles, Hilt, Koin, Room, Retrofit, REST APIs, SQL and NoSQL Databases, Git, Agile, Software Testing, CI/CD, Cross-platform development
